OFFICE OF

# WM. HENRY MAULE, Inc.

21st and Arch Streets Philadelphia, Pa.

*Maule's Seed Warehouse.*

WE wish to extend our thanks to our many friends whose trade has helped us build up what is probably America's largest direct-to-planter seed business.

## War Conditions Necessitate Early Orders This Year

We suggest that all orders be sent us as early as possible. On account of the war, those varieties of seeds which were formerly imported from abroad, are particularly scarce and, in spite of our large stock, it is possible that the entire supply of these varieties may become exhausted early in the season, so that it will be impossible to obtain them anywhere. In some cases too, home seed crops have not been as large this year.

As you know, freight, express and even parcel post are somewhat slow at present, owing to congestion, and last minute orders may cause delays and inconvenience you.

## Reduced Prices to Market Gardeners

For years it has been our policy to sell to market gardeners at reduced prices. Not since 1889 have we sold through retail dealers. Both our customers and ourselves have found this direct-to-planter selling method a real advantage, insuring, as it does, economy and fresh seeds.

## Terms

Cash with order or satisfactory bank reference. Money may be sent by post office or express money order, draft or check. Postage stamps will be accepted as cash. If you remit in stamps or cash, register your letter. We will send C. O. D. by parcel post or express, orders amounting to $15.00 or over if one-fourth of the amount of the order is remitted with the order. We cannot send C. O. D. by freight. Half pounds may be ordered at pound rates; half pecks at peck rates; half-bushels at bushel rates.

## Shipping Charges

Prices quoted in this list include bags, boxes or barrels and are f. o. b. Philadelphia, unless your order is for small seeds amounting to $10.00 or over. In this case we deliver it prepaid at your nearest freight station. Freight is not prepaid on orders containing heavy seeds, such as peas, beans, corn, potatoes, roots, vegetable plants or onion sets.

Sometimes you can save money by having your order sent parcel post. In computing parcel post charges, allow one pound to each quart of sweet corn and two pounds to each quart of peas or beans. Figure the number of pounds ordered and ask your postmaster the rate on same from Philadelphia. Remit cost of postage with your order.

## We Will Ship Your Order Any Time

You will find it advantageous to order all the seed you will need at once, so as to have your full supply reserved. If you wish, we will ship the seeds for early planting at any date you name, and hold the balance of your order to be shipped later.

## Our Four Leaf Clover Guarantee

FIRST. **Safe Arrival.** We guarantee that all goods sold by us shall reach our customers in good condition.

SECOND. **Money Insured.** We guarantee to hold ourselves responsible for the safe arrival of all remittances sent by post office or express money order, draft, check or registered letter.

THIRD. **As to Delivery.** We guarantee to deliver free of all charges to your nearest railroad station all garden seeds if your order amounts to $10.00 or more for ***small seeds only.*** On orders for small seeds less than $10.00 or for peas, beans, corn, etc., we will deliver by parcel post if you will inquire of your postmaster the amount of postage required and add same to your order.

FOURTH. **As to Crops.** We give no warranty, express or implied as to description, quality, productiveness or any other matter of any seeds, plants or roots we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned; but we do ***guarantee*** that we will use every effort to send you the best seeds, plants or roots procurable of such varieties as you may order.

What more could be asked? We guarantee everything but the crop. Protected from loss by this most liberal of guarantees, every one can rest assured of the most entire satisfaction.

## This Book Is A Ready Reference Price List

not a catalogue. For full descriptions of the seeds, plants and roots, see Maule's Seed Book for 1918, a copy of which will be sent you on request, if you have not already received one. You will note the reduced prices quoted in this list are for market gardeners only.

# The Maule Seed Book for 1918

is pronounced by one and all the most complete seed catalogue ever published in this country. It not only contains a full list of everything worth growing in Garden, Field and Flower Seeds, but also contains a list of Summer Flowering Bulbs, Plants, Small Fruits, Garden Tools, Fertilizers, etc. Tell your friends who do not know Maule's Seeds to send us their address on a postal card, and we will be only too glad to mail them a copy FREE.

RUBY KING PEPPER.

# *Our Frost Proof Cabbage Plants*

***Will Double Your Profit — Why?***

**We cannot guarantee safe delivery of these plants, owing to the congestion of all transportation caused by the war. Our responsibility ends on delivery to the postoffice or express company. No plants shipped C. O. D.**

There are a number of sea islands along the South Carolina sea coast where the soil and climatic conditions are just suited and well adapted for growing tough, hardy frost proof cabbage plants during the winter and early spring. The seed is planted in the open field; the plants make a slow but steady growth, until at 8 to 10 weeks of age they are very tough and hardy, the buds are purple and the outer leaves a reddish brown. When in this condition they can be shipped to territory further north and planted in the open ground a month to 6 weeks sooner than the home-grown hot bed or cold frame plants could be planted. These plants will stand a temperature of 8 to 10 degrees above zero without injury, the land freezing, or the plants being covered with ice, sleet or snow after they are planted will not injure them.

The top of the plant does not grow until your regular spring weather opens up, but the roots grow from the time they are planted and just as soon as spring weather starts, the established root growth assimilates the fertilizer in the soil, the plants grow very fast, maturing headed cabbage 10 days to 3 weeks sooner than you can mature them from hot bed and cold frame plants. You know what the difference in profit will be if your crop is matured and marketed before the general crop from home grown plants is matured.

TO GET THE ADVANTAGE OF THESE FROST PROOF CABBAGE PLANTS THEY MUST BE PLANTED A MONTH OR SIX WEEKS EARLIER THAN YOU WOULD PLANT HOME GROWN PLANTS.

Our cabbage plants are grown from the best Long Island grown seed and are shipped direct from our growing stations in South Carolina be mail or express. We can fill orders from December 1st to April 15th.

The plants will be somewhat wilted and have a hard, stunted appearance, which will be disappointing to persons who have never used these plants before. Regardless of appearance, they will produce the results.

**Can supply only the following varieties of frost proof cabbage plants:** Early Jersey Wakefield, Charleston or Large Wakefield, Succession and Early Flat Dutch.

Plants packed 500, 1,000 or 2,000 to the crate. Order in these quantities, they weigh about 25 pounds per 1,000 crated for shipment, and can be shipped to any point where they will arrive within 4 or 5 days.

**Prices: 35 cents per 100; $1.40 per 500; $2.50 per 1,000, postpaid. By express,** purchaser paying charges, **500 for $1.00; in lots of 1,000 to 4,000, at $1.50 per 1,000; in lots of 5,000 to 9,000 at $1.25 per 1,000; in lots of 10,000 or more at $1.00 per 1,000.**
